- Aqualine
- Speediboil
- R Unit
- DFB
- Power Pack
- EV Handwash / Aqua-Dri
- Immersion Heaters

Bringing together our product knowledge, industry experience and state of the art technology has enabled Santon to maintain a strong presence in the UK's water heating market for over 70 years.

To ensure that we remain at the forefront of developments we keep an eye on the future, and remain committed to developing and manufacturing a range of products that deliver both performance and real value for money to our customers.

UNVENTED CYLINDERS

Horizontal / Vertical Cylinders

A slimline range of cylinders with a choice of vertical models for wall mounting and horizontal models to fit into ceiling voids and ducting.

- Available in capacities from 50 to 100 litres
- Choice of 1.5kW and 3kW ratings @230V
- Temperature and pressure relief valve factory fitted for a safer installation
- Duplex stainless steel cylinder for long life
- 10 year cylinder guarantee
- 2 years on all other parts

UNVENTED CYLINDERS

PremierPlus

PremierPlus leads the way in cost effective mains pressure water heating.

- Available in capacities from 100 to 300 litres
- Choice of direct or indirect models
- Duplex stainless steel cylinder for long life
- Fully encased in polyurethane foam insulation to minimise heat loss
- 10 year cylinder guarantee
- 5 year expansion vessel and cold water controls guarantee
- 2 years on all other parts

UNVENTED CYLINDERS

PremierPlus Solar

PremierPlus Solar offers all of the benefits of the standard PremierPlus to give powerful mains pressure showering and fast filling baths, with the added benefit of lower running costs – up to 60% less than traditional systems.

- Available in capacities from 170 to 300 litres
- Specially designed solar coil for maximum solar efficiency
- Direct or indirect auxiliary heating
- Suitable for use with a variety of solar packages including Potterton Solar
- 10 year cylinder guarantee
- 5 year expansion vessel and cold water controls guarantee
- 2 years on all other parts

POINT OF USE VENTED

Aquarius Oversink

Aquarius Oversink is a mains fed open outlet water heater providing hot water to a single basin for light commercial duty such as washing cups and dishes.

- Available in 7 or 10 litre capacities
- High graded copper inner container
- Supplied with spout and valve for oversink use

POINT OF USE VENTED

Aquarius Undersink

Aquarius Undersink is designed to be used in conjunction with Santon vented taps to provide hot water to a single basin for light commercial duty such as washing cups and dishes.

- Available in 7 or 10 litre capacities
- High graded copper inner container

POINT OF USE VENTED

Accessories

A range of specially designed 'open outlet' vented taps are available for use with the Aquarius Undersink.

- Basin hot and cold taps
- Pillar hot and cold taps
- Mixer tap

POINT OF USE UNVENTED

Aquaheat

Aquaheat is a range of point of use unvented water heaters, ideal for a variety of single or multiple outlet commercial applications including dishwashing, handwashing and low demand canteen and workshop use.

- Available in 7, 10, 15 or 30 litre capacities
- 30 litre product available with a choice of vertical and horizontal mounting
- High graded copper inner container
- Supplied with expansion relief valve

POINT OF USE UNVENTED

Aqualine

Aqualine has the additional performance and safety benefit of an integral TMV2 thermostatic blending valve, giving more usable hot water by storing at a high temperature and blending down to a safe handwashing temperature.

- Available in 7, 10 or 15 litre capacities
- Factory fitted TMV2 thermostatic blending valve
- High graded copper inner container
- Ideal for safe hot water applications including public washrooms

POINT OF USE UNVENTED

Accessories

A range of installation accessories are available for use with Aquaheat and Aqualine.

- Thermostatic blending valves – TMV2 and TMV3
- Expansion kits
- Temperature and pressure relief valve for additional safety

DRINKING WATER

Speediboil

Speediboil provides a cost effective boiling water solution for a variety of commercial applications including canteens, offices, workshops, hairdressers and waiting rooms.

- Available in capacities from 2.5 to 7.5 litres
- Each unit is provided with full fitting instructions, fitting template and easily accessible plumbing fittings

VENTED STORAGE

R Unit

R Units are designed to supply hot water for handwashing, dishwashing and general cleaning purposes to cloakrooms, canteens and kitchen areas. Supplied with an integral cold water cistern, they are ideal for installations where the cold feed is from the mains supply but an unvented installation is impractical.

- Available in capacities from 25 to 115 litres
- Rectangular profile, for unobtrusive wall-mounting
- Can serve multiple outlets

VENTED STORAGE

DFB

Like the R Units, DFB is designed to supply hot water for handwashing, dishwashing and general cleaning purposes to cloakrooms, canteens and kitchen areas. DFB is particularly suited to applications where safe hot water is required thanks to its integral blending valve.

- Available in capacities from 25 to 75 litres
- Rectangular profile, for unobtrusive wall-mounting
- Ideal for safe hot water applications including public washrooms
- Float switch and solenoid valve remove the need for a cold water cistern

INSTANTANEOUS WATER HEATING

Power Pack

Power Pack is a compact instantaneous water heater. It can supply a shower outlet and / or spray tap, provided only one outlet is used at a time. Ideal for supplying hot water to a remote area, such as a garage or cloakroom.

- Available with a choice of 7kW, 9kW and 12kW
- White moulded vandal resistant casing
- High temperature cut-out for safety

HAND HYGIENE

EV Handwash

Designed to supply heated water to one basin, the EV instantaneous handwash range is ideal for commercial use when control of the water flow is required.

- Available with a choice of 3.1kW or 7.2kW ratings @ 240V
- Automatic 'No Touch' model for hygienic on / off operation

Aqua-Dri

Suitable for domestic and light commercial applications, Aqua-Dri offers fully automatic 'No Touch' operation.

- 1.5kW power rating @ 240V
- Automatic 'No Touch' model for hygienic on / off operation

Santon hand hygiene products combine stylish design, excellent performance and value for money.

EV Handwash

Aqua-Dri

INDUSTRIAL

Immersion Heaters

Santon industrial immersion heaters are designed for use in commercial and industrial environments covering the heating of water, oil and other solutions.

- Titanium, steel and Superloy elements available
- kW loadings from 2kW single phase to 54kW three phase
- Available in lengths from 280mm (11") to 1830mm (72")

A Leading Name

Santon has been a leading name in water heating for over seventy years with a comprehensive product portfolio, which includes vented and unvented water heaters for domestic, commercial and industrial use. Its reputation is built upon manufacturing top quality, highly reliable products, designed to meet the most demanding customer needs.

Santon is synonymous with innovation. The recently launched Aqualine range has brought more stringent levels of temperature control to an increasingly safety conscious commercial environment.

The company uses the latest techniques in research, development and manufacturing to ensure that Santon's product range satisfies all of its customers' requirements and represents excellent value for money.
